This intermediate EITI training emphasizes understanding effective strategies in working with children who are currently experiencing a crisis situation. This training focuses on de-escalation, client stability, and coping skills. The role of individual differences and thresholds in understanding difficult behaviors is discussed. Participants also learn to identify triggers to minimize difficult behavior and prevent crisis, review meanings underlying disruptive behavior, and implement appropriate behavior management strategies both in home-visiting and classroom settings.

For schedule and learning objectives, visit us at www.ElTraining.org

Please contact **Jacquelyn Christensen** for registration information and questions:
